Harry's profile evaluation: 30 October 2026 (update)

Data was pulled live from Upwork after your latest changes: your profile, your proposals, and 18 client searches (the same 15 as this morning plus 3 new ones). No search result was a paid (boosted) placement.

Short answer

- **Your profile is now a clean, consistent video editor profile.** Title, overview, skills, employment, education and portfolio all point to short-form editing for the first time.
- **You moved up and now show in 4 searches, up from 1:**
  - **#22** for podcast clips editor (Nigeria, newcomers)
  - **#53** for After Effects (Nigeria)
  - **#79** for short-form video editor (Nigeria, newcomers), up from #87
  - **#100** for Reels editor (Nigeria, newcomers)
- **You still don't appear in any normal search** (top 225) or Nigeria search without the newcomer filter. Every profile above you there has paid jobs, earnings or a Job Success Score.
- **The next step is getting your first job, not more profile edits.** You've sent **0 video proposals**. One small paid job is the change most likely to move you into the normal searches.
- **Fix these too:** you have only **1 portfolio video** (new editors with orders have about 14), no consultation, and no video intro.

1. Your profile now: section by section

Section	Now	Score	Comment
Portfolio	**1 video item**: "Podcast to Viral Reel"	⚠️ 4/10	Good quality, but you need 6–10
Old portfolio (web, AI, Roblox)	Removed	✅	Upwork should now read you as a video editor
Work history	0 jobs	❌	Needs your first job
Proposals	2 old ones (Roblox, AI automation), unviewed. **0 video proposals**	❌	The biggest gap now
Consultation	Off	⚠️	Several profiles just above you offer one
Video intro	None	⚠️	+10 free Connects
Certifications	Not visible to us	❓	Add CapCut and Premiere Pro. Remove or move down the Roblox ones
Catalog projects	Not visible to us	❓	Publish the 3 video projects and pause the Roblox ones

2. Where you rank now

#	Client search	This morning	Now
1–7	short form / TikTok / Reels / YouTube Shorts / podcast clips / CapCut / video editor (worldwide)	Not in top 225	Not in top 225
8	Skills: Short Video + Instagram Reels	Not in top 225	Not in top 225
9–12	short form / TikTok / Reels / podcast clips (Nigeria)	Not in top 125	Not in top 125
13	short form video editor (newcomers, worldwide)	Not in top 125	Not in top 125
14	short form video editor (newcomers + Nigeria)	#87	**#79** ⬆
15	video editor (Nigeria)	Not in top 125	Not in top 125
16	podcast clips editor (newcomers + Nigeria)	not checked	**#22**
17	Reels editor (newcomers + Nigeria)	not checked	**#100**
18	After Effects + Short Video skills (Nigeria)	not checked	**#53**

What this means:

- **The cleanup worked inside the newcomer pool.** Removing the 28 non-video items and adding video employment moved you up, and your podcast niche is your strongest position (#22).

- **Normal searches are sorted by track record.** Without the newcomer filter, the Nigeria results are led by editors with jobs and earnings (Emmanuel E., Anu F., Edmond O.). Every result in the worldwide top 225 has earnings, a Job Success Score, or both. Profiles with just $100–$700 earned already appear there. Your first paid job is what gets you in.
- **Who is just above you:**
  - **Podcast search:** Lawal O. (#20, $10, "Short-Form Video Editor | Podcast Clips for Finance & Business Brands"). The top 3 (Samson A., Joel M., Adewale A.) all put "Podcast Clips" right after "Short-Form Video Editor" in their title.
  - **Short-form search:** Wuraola A. (#77, $10) and Akanbi O. (#78, $10, consultation on).
  - **After Effects search:** Olukoyede O. (#51, consultation on) and Eniola O. (#52, $1K+ earned).

3. Things to check

1. **Portfolio label.** Your podcast reel's cover credits a Creative Commons (CC BY) source, which is good. Because it wasn't a paid client job, end the description with **"Sample edit, made from a Creative Commons podcast."** Clients and Upwork expect samples to be labelled.
2. **A website image showed up with your portfolio.** Our data showed a website screenshot ("Verdant / EcoFlow") next to your podcast reel. Open the portfolio item and make sure only video images are attached, and that no old web project is still hidden.
3. **Employment must be true and dated.**
   - Your 5 entries are: Freelance, Alpha Media Creators (Private Client), Ezi Fit Apparel Brand (Private Client), Fitness Coach (Private Client), and City Church London Media Team.
   - "City Church London" is a real, named organisation. Keep it only if you really edited for them, because a client could check.
   - Every entry needs real start and end dates. Clients look at them.
4. **Certifications.** Add the CapCut and Premiere Pro & After Effects certificates, using the texts I gave you, and put them above the 2 Roblox ones (or remove those).
5. **Catalog.** Pause the 5 Roblox projects and publish the 3 video projects from the portfolio PDF.

4. What to do next, in order

Today and this week:

1. **Send your first video proposals: 2–4 a day.** You have 80 Connects. Pick jobs posted in the last 24 hours with fewer than 10 proposals, payment verified, and single-clip, test video or podcast clip work at $10–$30 fixed. Lead with your podcast reel.
2. **Add 5–9 more portfolio videos** from the list in your portfolio PDF: talking-head reel, before/after, YouTube→Shorts, UGC ad with 3 hooks, AI video ad, faceless short, real estate reel, brand reel. You need at least 4–6 to look like the new editors who get hired. Put a podcast clip first, since that's your strongest niche.
3. **Turn on a consultation:** "30-min Short-Form Content Review" at $10–$15.
4. **Make the portfolio fixes** in section 3.

Next 2 weeks: 5. **Record a 60-second video intro** (+10 Connects; script in your plan PDF). Upload it to YouTube and send me the link, and I'll add it to your profile. 6. **Consider making your title even more podcast-focused,** like the top podcast rankers: "Short-Form Video Editor | Podcast Clips, Reels, TikTok & Shorts" (63 characters). Only do this if podcast clips is the work you want most. 7. **After your first job:** deliver in 24–48 hours, ask for a review, and offer a monthly package. Then re-check your rankings. You should start appearing in the Nigeria searches without the newcomer filter.

Don't change: your overview, skills, education or $10 rate. Don't add more employment entries. Five is already the most the top rankers use.
