Harry's portfolio and catalog plan

Part 1: The 10 portfolio videos

Before you start

- **Format:** vertical 9:16 (1080×1920), 15–60 seconds, MP4. Upload each video to the portfolio item.
- **Cover image:** use big, bold text on the first frame or a thumbnail (e.g. "PODCAST CLIP", "BEFORE / AFTER"). Top editors all use designed covers.
- **Be honest:** if the footage isn't from a paying client, end the description with "Sample edit." Never claim views, clients or results you don't have.
- **Footage you can legally use:**
  - **Free stock video:** Pexels, Pixabay and Mixkit (people talking, products, houses, city B-roll).
  - **Your own recordings:** you, a friend or family member talking to a phone camera, or a 2-person "podcast" recorded on 2 phones.
  - **Real people with permission:** ask a local pastor, coach, podcaster, small business or creator if you can edit one of their videos for free in exchange for using it in your portfolio. This can also become your first real client and review.
  - **Creative Commons videos:** on YouTube, filter by "Creative Commons" and credit the creator.
- **Order on your profile:** put #1, #3 and #4 first. Clients see the first 3–4 items.

---

1. Podcast clip with a strong hook and animated captions

- **Make:** take a 10–30 minute podcast or interview and pick one 30–45 second moment that stands alone (a strong opinion or a story). Open with the boldest line, add word-by-word captions, a few zoom cuts and a progress bar.
- **Title:** Podcast Clip | TikTok & Reels | Hook + Animated Captions
- **Description:** Turned a long podcast episode into a 40-second vertical clip for TikTok and Instagram Reels. I chose the strongest moment, opened with the boldest line as a 3-second hook, removed pauses and filler words, and added word-by-word animated captions, zoom cuts and a progress bar to keep viewers watching. Edited in Premiere Pro. Sample edit.
- **Skills:** Podcast Editing, Instagram Reels, TikTok Video, Subtitles, Video Editing

2. One podcast episode → 5 short clips (content pack)

- **Make:** cut 5 different clips from the same episode, with the same caption style and branding. Put 3 in the item, or combine them into one video showing all 5 side by side or one after another.
- **Title:** Podcast Repurposing | 1 Episode to 5 Shorts, Reels & TikToks
- **Description:** One long podcast episode repurposed into 5 ready-to-post short clips, with the same caption style, brand colours and hook structure across the set. This is how I help podcasters post every day without recording more content: one episode becomes a week or more of Reels, TikToks and YouTube Shorts. Delivered in 9:16 with clip titles. Sample edit.
- **Skills:** Podcast Editing, Short Video, YouTube Shorts, Social Media Video, Content Editing

3. Talking-head reel for a coach or founder

- **Make:** someone talking to the camera about a tip, 30–60 seconds. Add bold "Hormozi-style" captions with key words in colour, punch-in zooms, B-roll from Pexels and light sound effects.
- **Title:** Talking-Head Reel | Coach Content | Instagram Reels & TikTok
- **Description:** A coach's talking-head video turned into a fast, engaging Reel. I cut every dead second, added punch-in zooms on key points, bold captions with highlighted keywords, B-roll that shows what is being said, and subtle sound effects. Built for retention on Instagram Reels and TikTok, with captions inside the safe zones. Sample edit.
- **Skills:** Video Editing, Instagram Reels, TikTok Video, Motion Graphics, Adobe Premiere Pro

4. Before / After: raw footage to finished Reel

- **Make:** split the video: first 5–8 seconds of raw, boring footage labelled "BEFORE", then the edited version labelled "AFTER". Or show both side by side.
- **Title:** Before / After | Raw Footage to Scroll-Stopping Reel
- **Description:** Raw phone footage before and after my edit. The after version has a 3-second hook, tighter pacing, animated captions, colour correction, B-roll, sound design and background music, all in 9:16 for Reels, TikTok and Shorts. This shows exactly what I add to your content. Sample edit.
- **Skills:** Video Editing, Video Post-Editing, Social Media Video, Short Video, CapCut

5. Long YouTube video → YouTube Shorts

- **Make:** take a horizontal (16:9) YouTube-style video and reframe it to 9:16, following the speaker. Add a title bar at the top and captions.
- **Title:** YouTube Shorts Edit | Long-Form to Short-Form Repurposing
- **Description:** A horizontal YouTube video repurposed into a vertical YouTube Short. I reframed the shot to keep the speaker centred, cut the best 45 seconds, added a title bar, captions and a loop-friendly ending to boost replays. Ideal for YouTubers who want Shorts to grow their channel from content they already have. Sample edit.
- **Skills:** YouTube Shorts, YouTube Video, Video Editing, Short Video, Adobe Premiere Pro

6. UGC product ad with 3 hook variations

- **Make:** a 20–30 second product ad (skincare, gadget or drink, using stock or your own footage of a product). Make 3 versions with different first 3 seconds (a question, a bold claim, a problem). Show all 3 in the item.
- **Title:** UGC Video Ad | TikTok & Meta | 3 Hook Variations for Testing
- **Description:** A UGC-style product ad for TikTok and Meta, delivered in 3 versions with different opening hooks: a question, a bold claim and a problem/solution, so the brand can test which one performs best. Includes captions, product close-ups, a clear call to action and sound-off friendly text. Sample edit.
- **Skills:** Short Video Ad, UGC, Video Ad, TikTok Video, Video Editing

7. AI video ad

- **Make:** create product or lifestyle scenes in Higgsfield, Kling or Veo, add an ElevenLabs voiceover, music and captions, then finish in Premiere Pro or CapCut.
- **Title:** AI Video Ad | Higgsfield + ElevenLabs + Premiere Pro | Product Brand
- **Description:** A 30-second product ad made with AI video scenes (Higgsfield and Kling), an ElevenLabs voiceover, and final editing in Premiere Pro: captions, pacing, music and a clear call to action. This shows how I create ad content for brands that don't have footage yet, while keeping it edited by a human so it doesn't look generic. Sample edit.
- **Skills:** AI Video Generation, Video Ad, Short Video Ad, Adobe Premiere Pro, Video Editing

8. Faceless storytelling short

- **Make:** write a short story or fact script (e.g. "3 facts about..."), generate an ElevenLabs voiceover, and cover it with stock and AI B-roll, captions and music.
- **Title:** Faceless Short | AI Voiceover + B-roll | YouTube Shorts & TikTok
- **Description:** A faceless storytelling Short built from a script, an ElevenLabs AI voiceover, stock and AI-generated B-roll, captions and music. Paced for retention with a strong opening question and fast visual changes. Made for faceless YouTube and TikTok channels that need consistent videos without filming. Sample edit.
- **Skills:** YouTube Shorts, AI Video Generation, Video Editing, Subtitles, Social Media Video

9. Real estate property reel

- **Make:** use house and interior clips from Pexels. Fast transitions room to room, price/location text, music synced to cuts and an agent call to action at the end.
- **Title:** Real Estate Reel | Property Tour | Instagram Reels & TikTok
- **Description:** A 30-second property tour Reel for a real estate agent: smooth room-to-room transitions synced to music, clean text with the price, location and key features, colour correction and a clear "book a viewing" call to action. Built to help agents and property brands stand out on Instagram and TikTok. Sample edit.
- **Skills:** Video Editing, Instagram Reels, Social Media Video, Video Post-Editing, Motion Graphics

10. Brand reel with motion graphics

- **Make:** a short brand or business reel (a café, salon or online store) with an animated logo intro, motion text, brand colours and a call to action.
- **Title:** Brand Reel | Motion Graphics & Branded Captions | Social Media
- **Description:** A short brand Reel with an animated logo, motion text, branded captions in the client's fonts and colours, and a clear call to action at the end. Shows how I keep every video on-brand so a business's page looks consistent and professional across Reels, TikTok and Shorts. Sample edit.
- **Skills:** Motion Graphics, Video Editing, Social Media Content Creation, Instagram Reels, Video Editing & Production

When you get real clients: replace samples with real work. Change the ending to the real result, e.g. "Edited for a fitness coach. 12 clips per month." Only state numbers the client has shown you.
